Bailey Bridge Illustration

These photos show the details of the bridge gifted to the project by Mendip District Council having been removed from Frome. This will be re-erected at the old railway embankment (sheet1). The bridge is a Standard Bailey (the original and narrowest army version). All replacement parts and timber decking will be in accordance with the original specification as used on the Frome bridge. The bridge will be re-erected in accordance with the method detailed in the Bailey/Unifloat Handbook. Published by Acrow Press. 2nd Edition 1966.
